

B PROGRAMME SPECIFIC OUTCOME (PSO)

- PSO1:** Evaluate complex real world problems by applying principles of theoretical computing, engineering and mathematical models.
- PSO2:** Understand concepts and applications in the field of Computer Sciences viz. Computational Intelligence, Machine learning, Web technology, Information Retrieval Systems, Data Analytics, Communication and networking.
- PSO3:** Identify, analyse, and synthesize scholarly literature relating to the field of computer science to design, analyze and interpret data to find solutions
- PSO4:** Conceive Project Management capabilities to solve real world problems in accordance with the needs of the industry, in a stipulated time frame.
- PSO5:** Prepare to address the challenging requirements coming from the enterprise applications.
- PSO6:** Innovate, experiment and analyze research findings and practice the process of scientific publishing.
