Department of Home Science **World Breastfeeding Week** **Celebration**

The PG Department of Home Science organised a Community Nutrition Awareness and Exhibition as part of World Breastfeeding Week 2026 on 7 August 2026 at Raha Maternity Care Centre, Manjeri. The programme aimed to create awareness among mothers and their accompanying family members about the importance of breastfeeding, maternal nutrition and appropriate infant feeding practices. Ms. Huda Fathima, First Semester M.Sc. Home Science (Nutrition and Dietetics), conducted an awareness class on breastfeeding for the mothers and their accompanying family members. The session focused on the importance and benefits of breastfeeding, including the nutritional and health benefits of breast milk for both infants and mothers, and the importance of exclusive breastfeeding for the healthy growth and development of infants. Different breastfeeding positions were also demonstrated, providing practical guidance on appropriate positioning for comfortable and effective breastfeeding. An exhibition was organised featuring different galactagogue foods and ingredients traditionally associated with supporting breast milk production, along with different types of weaning foods suitable for infants. Written charts covering various aspects of breastfeeding, including its importance and benefits, benefits of breast milk to mothers and infants, breastfeeding positions and practices, were also displayed to provide simple and useful information. A skit based on the importance of breastfeeding was performed by the students, highlighting appropriate breastfeeding practices and creating awareness about common misconceptions. An informative booklet on breastfeeding was also distributed to the participating mothers. The booklet included information on the composition, types and stages of breast milk, important components of breast milk, breastfeeding positions, common breastfeeding problems and their management, and the short-term and long-term benefits of breastfeeding for both mothers and infants. The programme was coordinated by Mrs. Farsana Shirin K, Assistant Professor (Adhoc), Department of Home Science, as Faculty Coordinator, with Ms. Huda Fathima and Ms. Sabitha EK, First Semester M.Sc. Home Science (Nutrition and Dietetics), as Student Coordinators. The programme was successfully conducted and served as a meaningful platform for promoting awareness about breastfeeding, maternal nutrition, breast milk production and appropriate infant feeding practices.

A Mother's First Gift – A Skit on Breastfeeding

The department observed World Breastfeeding Week 2026 by organising an awareness skit titled “A Mother's First Gift” on 7 August 2026 at 12:30 PM in front of the Administrative Block. The programme was conducted with the objective of creating awareness among students about the importance of breastfeeding and promoting maternal and infant well-being. The highlight of the programme was the presentation of the skit, which portrayed the experiences of a mother who wishes to provide the best nourishment for her baby while continuing her career and managing household responsibilities. The presentation also emphasised the importance of family and social support for breastfeeding mothers. The role of family members in sharing household responsibilities, helping with childcare, and providing emotional support was highlighted. The skit conveyed the message that returning to work does not necessarily mean that a mother has to stop breastfeeding and that proper support can help mothers continue breastfeeding successfully. The skit was presented by the students of I Semester M.Sc. Home Science (Nutrition and Dietetics) and III Semester BSc Family and Community Science. The programme was coordinated by Dr. Noora Beevi KP, Assistant Professor (Adhoc), PG Department of Home Science, who served as the Faculty Coordinator, along with the student coordinators, Ms. Rameesha KK and Ms. Suhaila Jasmine TT, of I Semester M.Sc. Home Science (Nutrition and Dietetics).
