Other suggestions received for improvement:

1. Good
2. Nil
3. No suggestions
4. Nothing
5. Resources are not fully available. So make sure about it
6. Not more. Going moderately well
7. It will be more helpful if more opportunities are given for skill development, if practical oriented sessions given more importance than conducting lectures or sessions on particular area or topic.
8. None
9. Go in the same mode
10. Introduce innovative infrastructure and technology, make teaching a two way interaction
11. No more suggestions. I am satisfied in with all facilities
12. Provide personal mental support
13. Conducting student-department meetings
14. Hope for a learner centred approach
15. Provide more ideas for students through more programs. All activities are good.
16. More subject related classes rather than seminars by the students.
17. Maybe the system the college is working is good for other students , for me I felt like I was not fitting in . For the female students who is likely to get married because of family pressures or some other reasons this place is nearby and convenient to pursue a UG or PG. If that's not the case the place is not encouraging or equipping the student to achieve the goals. Just an honest opinion
18. Students Communication skill must be increased.
19. Do complete syllabus on time
20. Give more importance to technology related learning
21. I am always satisfied with unity. I will include in my prayer for further development of UNITY.
22. By bridging the gap between the community and the school, you can expose students to diverse perspectives and real-world experiences.
23. Nothing
24. Good
25. Different programmes are being conducted within each dept. if other depts included other students (not of the same dept.)the webinars would be really useful. eg:digital efficiency classes for CS STUDENTS only. Also it feels like the focus is on more number of programs but not on properly conducting them in many dept.s
26. Use Technology as an Educational Tool
27. Both
28. NIL
29. No comments
