#### 4. Mushroom Culture Program

1	Name of the Programme	Manna 2023- Mushroom Culture Program
2	Aim, Objectives, And Scope of The Programme	The mushroom culture program for students aims to teach about mushrooms and how to grow them. Students get hands-on experience learning about mushroom biology, growing techniques, and why mushrooms are important. The program also encourages students to think about starting their own mushroom businesses and teaches them about sustainable farming. By doing research and trying new things, students can help find better ways to grow mushrooms and protect the environment. Overall, the goal is to inspire students to love mushrooms and make a positive impact through growing them.
3	Name of the Coordinator/Organizing Secretary	Ms Shifa M., Assistant Professor Adhoc, Department of Botany.
4	Date of Programme	14 <sup>th</sup> November 2023
5	Mode of The Programme(Offline/Online)	Offline
6	Total Number of Attendees/Participants	30
7	Organizing Body	P.G. Department of Botany

8	Organizing Committee Members	Dr. Deepa P., Ms Sudheesha K., Ms Hana Backer– Assistant Professors, Department of Botany
9	Student Coordinators	Sana V. – Fourth semester B.Sc Botany.
10	Detailed Report of The Programme	The Mushroom Culture Program conducted by the PG Department of Botany on November 14, 2023, aimed at imparting best practices in mushroom cultivation. The event was coordinated by MS.Shifa M and MS. Sudheesha K. The primary objective of the program was to provide students with practical knowledge and hands-on experience in mushroom cultivation.
11	Feedback Analysis	 <p>■ Very good ■ Good ■ Not bad</p>

12	Outcome, Evaluation and Results of The Program	The outcome evaluation and results of the mushroom culture program for students have been promising. Through the program, students have not only gained a solid understanding of mushroom biology and cultivation techniques but have also developed practical skills in growing mushrooms. Many students have successfully cultivated their own batches of mushrooms, demonstrating proficiency in substrate preparation, inoculation, and harvesting. Additionally, the program has sparked entrepreneurial interests among students, with several expressing intentions to pursue mushroom-related business ventures in the future. Furthermore, the emphasis on sustainability has instilled eco-consciousness in students, who are now more aware of the environmental benefits of mushroom cultivation and its potential role in sustainable food production. The program's interdisciplinary approach has enriched students' learning experiences, fostering connections between biology, agriculture, entrepreneurship, and environmental science.

## 5. Alumni Entrepreneurs

The PG Department of Home Science promotes alumni entrepreneurs by offering monthly Extension Counters for product sales and recommending their items for various uses. During the Mega Alumni Meet "Priyamanu Unity" on January 13, 2024, alumna Ms. Ruba Henna (2004-2007 batch) set up a body composition assessment stall.

## 6. Earn While Learn Program

The Earn While Learn Programme by the PG Dept. of Home Science provides students with practical, hands-on training in their field while earning financial support. It aims to enhance skills, offer real-world experience, and promote financial independence during their studies.

On 14th July 2023, the PG Dept. of Home Science held an Earn While Learn Programme, where M.Sc. Nutrition & Dietetics students set up a French fries stall offering various flavors. The event, inaugurated by MLA Adv. UA Latheef, was well-received, with all items sold. Faculty and student coordinators guided the successful initiative.

On October 16, 2023, II Sem M.Sc. Home Science – Nutrition & Dietetics students organized the Khana Peena Food Stall for World Food Day, offering 14 nutritious items to promote healthy eating. Inaugurated by Principal Prof. (Dr.) Muhammed Basheer Ummathur, the stall was part of the Earn While Learn Programme, providing hands-on training and work experience.

The poster features a yellow background with a central image of a hand holding a pile of french fries. Text on the poster includes the college name, department, event title, date, time, and coordinators.

## 7. Paper Collection Program

The paper collection program, starting on March 6, 2024, at 12:45 PM, aims to promote environmental sustainability by reducing paper waste and conserving resources through recycling. Objectives include environmental conservation, resource efficiency, raising awareness, cost savings, and supporting the recycling industry. The program targets households, schools, offices, and industries, involving the collection of all recyclable paper products. Collection methods include drop-off points, curbside collection, and partnerships with organizations. Educational campaigns and monitoring are integral to its success.

## Paper Pen Making from Used Paper

The "Paper Pen Making from Used Paper" workshop on November 28, 2023, aims to educate participants on recycling used paper into eco-friendly pens, promoting sustainable practices. Objectives include providing knowledge on recycling techniques, offering hands-on experience in crafting paper pens, and fostering creativity and skill development. The workshop also seeks to raise awareness about the environmental benefits of recycling and encourage community engagement in sustainable practices. By the end, participants will have created their own recycled paper pens, promoting environmental responsibility in their daily lives. Dr. Soumini C and students from MES Keeveeyem College led the session, providing hands-on training and tips on crafting eco-friendly paper pens.

## 8. Papier 2023-24

is a green initiative by the Chemistry Association of KAHM Unity Women's College, Manjeri, aimed at promoting sustainable practices by collecting wastepaper for recycling. Designated bins were placed in the Chemistry Department and classrooms to encourage proper paper disposal. The program educates students on the importance of recycling, reduces landfill waste, and supports local recycling efforts, contributing to environmental conservation and sustainability.

## 9. Papier And Infotainment

The Department of Chemistry hosted "Papier and Infotainment" at Nazrath School, Manjeri, on March 6th, 2023, to promote eco-friendly practices at the school level. Led by Dr. Deepa K and student coordinator Ms. Omniya Ummer, the initiative emphasized wastepaper management and recycling, providing designated boxes for paper collection. The program aimed to instill environmental responsibility among students, highlighting the economic and environmental benefits of recycling.

## 10. Technology Enabled Design for Teaching, Learning and Evaluation

The COVID -19 pandemic has necessitated cutting edge technologies and learner based, technology assisted teaching, learning and evaluative methodologies to address the issues in the field of education in general and higher education in particular. To cater the diverse needs of students- a pandemic driven community- and to engage them in higher educational practices retaining the drive for learning was the difficult task during the outbreak of pandemic. The department was keen in assessing the scenario and the needs of the students and preparing strategies to address the issue through effective technology integration

## 11. Media Club

The Speak for India Intercollegiate Debate Competition is a State level debate competition for college students in Kerala. The competition is organized by Mathrubhumi, a leading media group in Kerala, and Federal Bank, a major private sector bank in India. The competition aims to provide a platform for students to express their views and opinions on various topics of national and social relevance. The department of History, KAHM Unity Women's College, Manjeri hosted the competition three times at Unity Women's College Manjeri. Mathrubhumi along with Federal Bank conduct an inter-collegiate debate competition called "Speak for India – Kerala Edition". It is a competition which will be conducted across Kerala. It will allow college going students to showcase their oratory skills. It gives an opportunity for youth to give out their view point on various topics which are prevailing in the current scenario. The competition is such a prestigious platform for youth as they will get recognition and rewards for a better future. The event will start from 50 block level competition across Kerala followed by competitions in 14 districts, charging them towards zonal level which tends to give way to semi-final and a grand finale. Cash prizes up to 15 lakhs would be given in various levels.

## 12. Earn while learn

Earn while learn programme is an initiative by the PG Dept. of Home Science for the students with the objective to make the students self-sustained during their time of studies for getting work experience and providing hands-on training while studying. In this programme, the students have the facility to put their stalls on every Friday from 12.30 to 2 pm. Second semester MSc Home Science (Nutrition and Dietetics) students arranged 'Pop-a-Corn' food stall in front of APJ Abdul Kalam Block at 12.30pm. They prepared different varieties of popcorn such as Butter, Chocolate, Caramel, Normal and Masala popcorns in the Nutrition Lab and kept them in the arranged stall for sale. Teachers and students from various departments visited the stall and all the items were sold. The students gained good profit from the stall. Also, they shared a part of their profit in the palliative box in the college

### 13. Diet Counselling

The Department of Home Science conducted a diet counselling centre on all Fridays (1 to 2 pm) with the purpose of extending awareness and knowledge about healthy diet and lifestyle to the public. The students are also trained to provide counselling to various health related issues with the view to train them as health ambassadors. Important day's specific to nutrition and health are observed to create awareness among students and the public. All the sectors like students, teachers and staff are covered with special emphasis on lifestyle disorders and non-communicable diseases.

The regular activities include anthropometric measurements, biochemical estimation, biophysical analysis, and assessment of Knowledge, Attitude and Practice (KAP), Disease Detection Camps, observation of important health days and conduct of awareness programmes.

## 14. Promoting Alumni Entrepreneurs

The Alumni who are entrepreneurs in various fields were promoted by providing opportunities to sell their products inside and outside college. The PG department of Home Science offers Extension Counter on Friday, once in a month for the sale of popularization of their products. Apart from that, their products have been promoted by recommending and purchasing them for various purposes in and around the department.

The poster is for an event titled "Teamio 2k23 Alumni Entrepreneurs Mela". It features the college's name at the top, the PG Department of Home Science, and the date "15 Feb 2023 @ College Ground". Below the text are images of a cake, five women in colorful dresses, and a piece of jewelry. The bottom of the poster lists "Cakes, Jewelleries, Dresses..etc.".

PG Department of Home Science conducted Home Science Alumni Entrepreneurs Mela, 'Teamio 2K23' on 15 February 2023 at college ground on the day of annual sports meet. The college Principal Dr. Muhammed Basheer Ummathur, The Manager Jb. O. Abul Ali and Vyshakh S. R, Captain of Indian Amputee Football team jointly inaugurated the function. In the mela, the alumni were given a platform to use their skills to exhibit and sell their goods. The event consisted of six stalls which include dress materials, varieties of food stalls and scented candles. Alumni members from different batches arranged stalls. The faculty coordinator for the programme was Mrs. AS Anitha Begum, Associate Professor, Dept. of Home Science.

## 15. Peer group learning

Peer groups, each with a leader, were formed in V semester B Sc Family & Community Science class in order to facilitate and guide the students in planning normal and therapeutic diets. Planning a balanced diet with adequate supply of nutrients for different stages of life and the dietary modifications for different disease conditions is a laborious process and it needs expertise and patience. In order to simplify the process and for providing effective training in planning such diets, peer groups were formed in V semester B Sc Family & Community Science class. The students who are good at diet planning and nutritive value calculation were identified as peer group leaders.

## 2021-2022

### 16. Papier

Papier is a new initiative by the Chemistry Association of KAHM Unity Women's College, Manjeri. We recommend using a designated paper recycling bin for the collection of paper waste from College Campus. Collecting in separate bins will keep paper waste for recycling as clean as possible. This is the best way to ensure that the waste paper can be recycled properly. The recycling of paper is the process by which waste paper is turned into new paper products. It has a number of important benefits besides saving trees from being cut down. It is less energy and water intensive than paper made from wood pulp. It saves waste paper from occupying landfills and producing methane as it breaks down. This green initiative by students of Chemistry Department named 'PAPIER' inaugurated for the year 2021-22 by Chemistry Association on 17/08/2021 at 1.30 PM.
