PHOTOGRAPHY CONTEST NATIONAL WILDLIFE DAY 2023

KAHM UNITY WOMEN'S COLLEGE, MANJERI, MALAPPURAM
PG DEPARTMENT OF BOTANY

National Wildlife Day
4th September 2023
"Partnerships for Wildlife Conservation"

Photography Contest

Themes
Diversity of natural habitats
Human-Wildlife interaction

Participants: Alumni, Students & Teachers

Coordinators: Dr. Deena P. & Daliva TP | Your entries to: 9446973230 | Deadline: 03/09/2023

National Wildlife Day on September 4 was founded in 2005 by Colleen Paige in honour of the late wildlife conservationist Steve Irwin who strived to raise awareness on several issues that all wildlife continues to tackle, which brings attention to the plight of endangered species and their habitats. The day encourages awareness about wildlife species that need a voice. There are so many amazing creatures that call this planet home; hence it is a special day to honour them all.

As part of National Wildlife Day 2023, PG Department of Botany, KAHM Unity Women's College, Manjeri organized a 'Photography Contest' on 04th September 2023 to unlock the beauty of natural elements in their natural habitat within a frame. All the participants including alumnae, students and teachers of the various Departments (Department of Botany, Chemistry, Commerce, English, Home Science, History and Malayalam) portrayed the beauty of nature and conveyed the messages about the importance of maintaining habitats for our favourite creatures. The accepted wildlife photos were judged by Santhosh Mithra T., Artist and Photographer, Art and Photography Unit, University of Calicut, Thenhippalam, Malappuram.

Good Bye And Good Luck

The 20th of September 2023 was a day of mixed emotions, bridging the gap between farewell and fresh beginning. 'Epoch' and 'Euphoria' were not just events; they were experiences that celebrated the bonds we share and the promising future ahead. As we bid farewell to our beloved seniors and welcomed the new faces, we were reminded that our institution and department are places of ever-flowing emotions, memories, and endless possibilities.

As part of the Association Programme of B.Com. CA, PG Department of Commerce conducted a campus walk 'Explore Uninature' to the students for familiarizing the campus plants of the college. Dr. Deepa P. and Ms. Shifa M. were the resource persons and shared the Botanical information regarding the campus plants to the students.

SYLVIE Association, Department of Botany, KAHM Unity Womens College organized a PICTURE QUIZ competition as a part of extracurricular activities on 21st September 2023. The event aimed to engage students in a fun and educational way while testing their knowledge of various subjects through visual stimuli. The program took place in the Botany lab of the Department during the association hour and lasted for approximately one hour. All the students in Botany stream participated in this quiz. The quiz was based on current affairs and botany related aspects. It was a team program. The first place was scored by First year B.Sc. students. The program was coordinated by Dr. Faseela P. Assistant Professor, PG Dept of Botany, Ms. Shaharban C., Association Secretary (5th Sem B.Sc. Botany) and Dilna (5th Sem B.Sc. Botany).

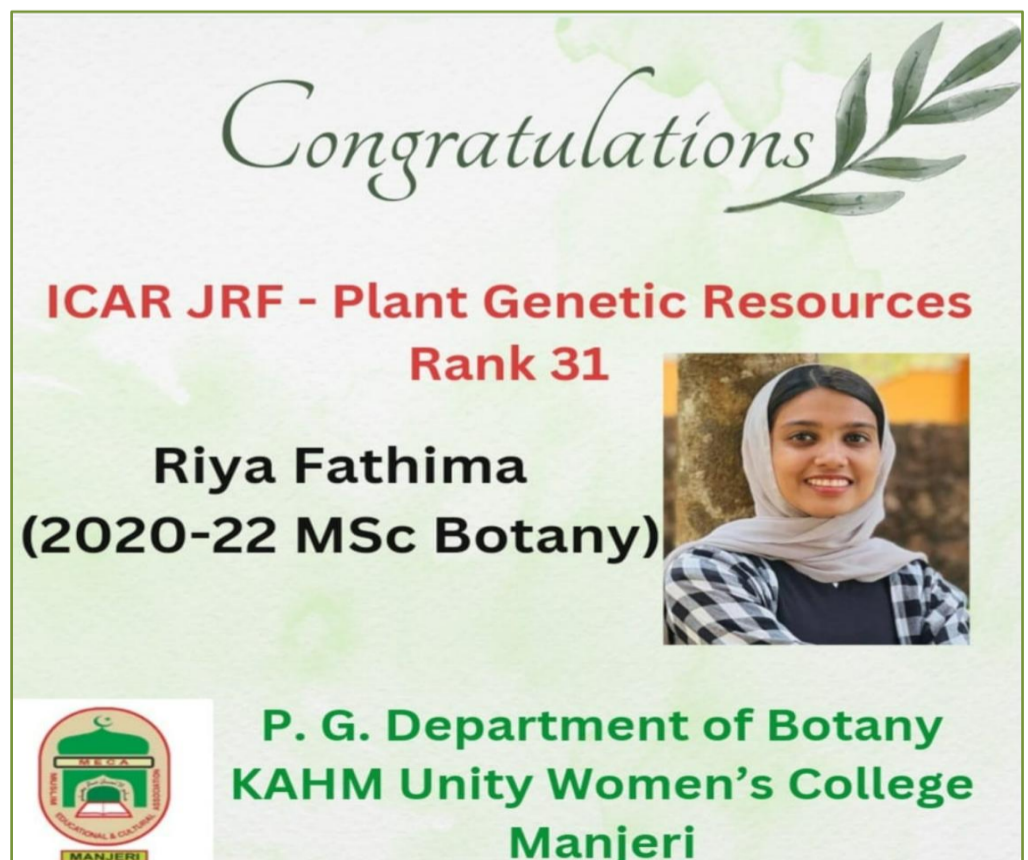

Participation in AGORA Edition 5.0, International Multidisciplinary Annual Seminar Series, 2023.

Dr. Deepa P. Participated the webinars titled 'Birding as a tool of Biodiversity Conservation' and 'Race to rescue with Geodata - Climate change mitigation and adaptation' on 23rd and 24th September 2023 respectively that was organized by SN College, Kollam as part of AGORA Edition 5.0, International Multidisciplinary Annual Seminar Series, 2023.

Fathima Sahannadha K. of B.Sc. Botany, 2020-2023 batch secured admission to M.Sc. Biomedical Science at University of East London, UK

Workshop on 'Grow your Own Microgreens' conducted on 26th September 2023. Coordinated by Dr. Deepa P. Hana Backer and Fayiza T..

Microgreens are packed with nutrients including vitamin K & fibre, which help to manage high blood pressure and reduce the risk of heart attack. Since Microgreens are easy to grow at home with minimal supplies, they can be a great source of daily nutritional requirements.

In connection with World Heart Day, PG Department of Botany organized a workshop entitled 'Grow your own Microgreens' on 26th September 2023. As part of the Programme, the seeds of fenugreek (*Trigonella foenum-graecum* L.) and green gram (*Vigna radiata* L.) were soaked in water for 6-8 hours to speed up the Germination. The seed beds were prepared on wet cotton layers placed in plastic trays and incubated in a warm location. Misted the Microgreens daily with water to keep the cotton moist. Once the Microgreens developed a set of true leaves, they were harvested and rinsed gently under running water.

The collected Microgreens were handed over to Shylaja K., Anganavadi Worker, Anganavadi (14), Adangampuram, Narukara, Manjeri and the faculties of Department of English and Mathematics, KAHM Unity Women's College, Manjeri. The Programme was coordinated by Dr. Deepa P., Assistant Professor Adhoc, PG Department of Botany and Fayiza T., 3rd Semester M.Sc. Botany.
